Research Article							
S.No	Name	Role	Department	Title	Journal	Impact Factor	Category
1	Dr. Shaukat Ali Mazari	Co-Corresponding author	Chemical Engineering	Nanomaterials: Applications, waste-handling, environmental toxicities, and future challenges – A review	Journal of Environmental Chemical Engineering	5.909	W
2	Dr. Shaukat Ali Mazari	Corresponding author	Chemical Engineering	Development of fruit waste derived bio-adsorbents for wastewater treatment: A review	Journal of Hazardous Materials	10.588	W
3	Dr. Shaukat Ali Mazari	Co-Corresponding author	Chemical Engineering	A review of gas chromatographic techniques for identification of aqueous amine degradation products in carbonated environments	Environmental Science and Pollution Research	4.223	W
4	Dr. Shaukat Ali Mazari	Corresponding Author	Chemical Engineering	An overview of effect of process parameters for removal of CO2 using biomass derived adsorbents	Biomass Conversion and Biorefinery	4.987	X
5	Engr Abdul sattar jatoi	1st author	Chemical Engineering	Recent trends and future challenges of pesticide removal techniques –A comprehensive review	Journal of environmental chemical engineering	5.909	W
6	Engr Abdul sattar jatoi	Corresponding Author	Chemical Engineering	A review on extractive fermentation via ion exchange adsorption resins opportunities challenges and future prospects	Biomass conversion and biorefinery (Springer)	4.987	X
7	Engr Abdul sattar jatoi	Corresponding Author	Chemical Engineering	Experimental and numerical investigation of DBT degradation via rhodococcus spp.(SL-9) through the use of biological assisted method	Biomass conversion and biorefinery (Springer)	4.987	X
8	Engr Abdul sattar jatoi	Corresponding Author	Chemical Engineering	Bio-assisted treatment of hazardous spent wash via microbial fuel cell Environmental friendly approach	Biomass conversion and biorefinery (Springer)	4.987	X
9	Shoab Ahmed Qureshi	4th author	Chemical Engineering	Development of catalysts for sulfuric acid decomposition in the sulfur–iodine cycle: a review	Catalysis Reviews Science and Engineering	11.389	w
10	Shaukat Ali Mazari	3rd author	Chemical Engineering	Ultrasonic-assisted synthesis of polythiophene-carbon nanotubes composites as supercapacitors	Journal of Materials Science: Materials in Electronics	2.478	x
11	Shaukat Ali Mazari	Corresponding author	Chemical Engineering	A review of recent trends and emerging perspectives of ionic membranes for CO2 separation	Journal of Environmental Chemical Engineering	5.909	W
12	Shaukat Ali Mazari	4th author	Chemical Engineering	Nickel oxides/hydroxides-graphene as hybrid supercapattery nanocomposites for advanced charge storage materials – a review	Critical Reviews in Solid State and Materials Sciences	9.429	w
13	Abdul Sattar Jatoi	Corresponding author	Chemical Engineering	Recent developments and progress of aerogel assisted environmental remediation: a review	Journal of Porous Materials	2.496	x
14	Abdul Sattar Jatoi	4th author	Chemical Engineering	Carbon-based sorbets for heavy metal removal from aqueous solution, discrepancies, and future prospects: a state-of-the-art review	Biomass Conversion and Biorefnery	4.987	X
15	Abdul Sattar Jatoi	Corresponding author	Chemical Engineering	Hydrogen production through steam-assisted glycerol reforming via thermodynamic approach	Biomass Conversion and Biorefnery	4.987	X
16	Abdul Sattar Jatoi	Corresponding author	Chemical Engineering	Recent trends and future perspectives of lignocellulose biomass for biofuel production: a comprehensive review	Biomass Conversion and Biorefnery	4.987	X
17	Abdul Sattar Jatoi	Corresponding author	Chemical Engineering	Recent advances and developments in advanced green porous nanomaterial for sustainable energy storage application	Journal of Porous Materials	2.496	X
18	Muhammad Azam Usto	Corresponding author	Chemical Engineering	Desulfurization of thar lignite by oxidative alkali leaching under pressure	International Journal of Coal Preparation and Utilization	1.34	X
19	Engr. Amna Anjum	Corresponding author	Chemical Engineering	A review of role of cathodes in the performance of microbial fuel cells	Journal of Electroanalytical Chemistry	4.464	W
20	Engr. Abdul Sattar Jatoi	Corresponding author	Chemical Engineering	Overview of bioelectrochemical approaches for sulfur reduction: current and future perspectives	Biomass Conversion and Biorefinery	4.987	X
21	Engr. Abdul Sattar Jatoi	Corresponding author	Chemical Engineering	Comprehensive Review on Silicon-enhanced Green Nanocomposites Towards Sustainable Development	Silicon	2.67	X
22	Engr. Abdul Sattar Jatoi	4th author	Chemical Engineering	A review on the properties and applications of chitosan, cellulose and deep eutectic solvent in green chemistry	Journal of Industrial and Engineering Chemistry	3.72	W
23	Shoab Ahmed Qureshi	1st author	Chemical Engineering	Emerging pollutants and their removal using visible-light responsive photocatalysis – A comprehensive review	Journal of Environmental Chemical Engineering	5.909	W
24	Dr. Ghulamullah	Corresponding author	Chemical Engineering	Modeling and simulation of solar flat plate collector for energy recovery at varying regional coordinates	Environmental Science and Pollution Research	4.22	W
25	Dr. Abdul Karim Shah	Corresponding author	Chemical Engineering	Synthesis of Isopulegol Through Cyclisation of Citronellal Using Solid Acid Catalysts: Catalytic Reaction Performance Evaluation and Process Parameters Optimization	Pakistan Journal of Analytical and Environmental Chemistry	0.7	Y
26	Engr. Zubair Hashmi	2nd author	Chemical Engineering	Recent trends and future challenges of pesticide removal techniques –A comprehensive review	Journal of environmental chemical engineering	5.87	W

Book

S.No	Name	Role	department	Title	Publisher		

Book Chapter

S.No	Name	Role	department	Title	Publisher		
1	Engr. Abdul Sattar Jatoi	2nd author	Chemical Engineering	Thermo-Mechanical, rheological and chemical properties of recycled plastics	Plastic Waste for Sustainable Asphalt Roads		
2	Engr. Abdul Sattar Jatoi	2nd author	Chemical Engineering	Advanced green nanocomposite materials for wastewater treatment	Sustainable Nanotechnology for Environmental Remediation		
3	Engr. Abdul Sattar Jatoi	1st author	Chemical Engineering	Conventional techniques for nanomaterials preparation	Sustainable Nanotechnology for Environmental Remediation
